

REIN LEGACY LIGHT BODY KIT 1100-LUMEN W/REIN 3.0 HEAD BLACK

PERFORMANCE: Finally. The REIN Legacy Body gives you the ability to run other tail caps and other remote switches on your REIN. Using a Unity Tactical™ or Surefire™ branded remote switch with a Surefire™ tail cap assembly, with a REIN 3.0 light head and a Cloud Defensive branded 18650 battery, you can expect 90,000 candela from your light. That reflects only a 10% drop from the 100,000 candela the proprietary Cloud Defensive REIN remote switching yields. By giving up that 10%, however (barely noticeable to the eyes), you gain all the cross-compatibility that many of you want and need. And your REIN system is still more powerful than any other option on the market when you factor in the combined lumen and candela capability. An important word on that 10% loss: It's approximately a 10% reduction in output and subsequent candela. Cloud Defensive uses the word "approximate" because that number will technically differ from tail cap to tail cap based on which one you choose. It will also differ from remote switch to remote switch, based on which one you choose. Cloud Defensive strongly encourages everybody not to get wrapped up in the nuance of this reality. Instead, focus on the fact you are getting 90% of what the REIN is capable of, and you are getting that through tail caps and remote switches that you already have or want. You generally need dedicated equipment to see a difference in performance from 90% to 100%. And even at 90%, in the case of the REIN 3.0, the Legacy build gives you more capability than any other brand on the market when you factor in the combination of both lumens and candela. Runtime standards per ANSI/PLATO-FL1 ensure your light performs as long as you need it. **POWER:** The fuel source that your light head was designed for dictates the fuel source for the REIN Legacy body. All REIN lights are optimized for use with Cloud Defensive-branded Samsung™ flat-top 30Q 18650 batteries or 18350 batteries in the case of the REIN Micro. If you have a Dual-Fuel light head, you can still use your CR123A batteries as a secondary power source. Cloud Defensive recommends only using flat-top batteries. Most button-top batteries are not compatible with the REIN Legacy Body. **DIMENSIONS:** The smaller diameter of the Surefire™ tail cap will yield a smaller tail-cap profile which will reduce the overall profile of your REIN light. When coupled with the Unity Tactical™ or Surefire™ switches, please be aware the overall length of your system will be a little longer than Cloud Defensive's remote switch offering. Cloud Defensive knows size matters. Particularly when you start working your lights around other systems on the gun, such as laser systems and backup sights. With a small 1.3" bezel diameter and lower mounting lug height profile, it sits tighter to your gun than ever before. The full-size REIN is now right at home on even the shortest host platforms. **REMOTE SWITCHES:** The REIN Legacy body was created for the purpose of allowing you to use other remote switches and tail cap assemblies with your REIN 3.0 weapon light. As such, it is widely and fully compatible with all the Surefire™ and Unity Tactical™ remote switching options commonly used with Scout™ – pattern lighting systems. A non-exhaustive list of some of the switches Cloud Defensive are compatible with: Surefire™ ST-07 Surefire™ SR-07 Surefire™ SR-07-D-IT Unity Tactical™ Hot Button Unity Tactical™ TAPS Unity Tactical™ AXON Modlite™ Modbutton In short: If it plugs into a Surefire™ tail cap, it works with the Legacy Body and any Cloud Defensive REIN light head you put on. **IMPORTANT WARRANTY AND FUNCTIONALITY INFORMATION:** By combining parts from multiple manufacturers, the nature of the system changes. Remember, these are electrical components that Cloud Defensive is trying to

play nice with, and that adds complexity. Typically, electrical failures occur in the tail caps and the remote switches. This has been well established across the weapon light community. Regardless of the failure point, Cloud Defensive stands resolute behind its Lifetime Warranty. However, in the case of a REIN 3.0 being controlled by other companies' components, please consider a couple of realities: WARRANTY: Cloud Defensive can only warranty Cloud Defensive parts. Cloud Defensive do not warranty other manufacturers' components. Failure of any non-Cloud Defensive component must be handled by the respective manufacturer. Adding a layer of complexity to this is the reality that when a part fails in the field, the light very well may fail completely, but you are not likely to know why. Meaning you would not be able to quickly discern a dead tail cap from a dead light head, each of which was made by a different manufacturer. If that happens, you need to contact Cloud Defensive's Customer Service department. They will then walk you through a process to determine what failed. In this scenario, it is not likely to be a Cloud Defensive part. If it is, Cloud Defensive will replace it immediately per warranty. If it's a part Cloud Defensive did not make (i.e. tail cap or remote switch), then you will need to speak with the appropriate company, and you'll be subject to their warranty support and process. The REIN Legacy Body does NOT offer a Battery Jack feature. That means there is no adjustability in the system for various battery lengths. The REIN Legacy Body will run best on flat-top 18650 cells or two CR123 batteries. Button-top cells do not perform as well and that is why Cloud Defensive do not use them. Cloud Defensive is in the business of giving you the maximum performance possible. So, the Legacy Body has been optimized for the batteries that give you maximum performance. Historically, REIN lights are IPX-8 rated to 100ft for 24hrs. With a different Tail Cap and Remote assembly, expect that rating to parallel the respective rating of the Surefire™ and/or Unity Tactical™ components. And yes. Made in the USA. Output Specs & New Features (with REIN 3.0 head) 90,000 Candela peak beam intensity (With 18650) 1100 Lumens output (With 18650) 65 minutes run-time (With 18650) Dual-Fuel capability. REIN 3.0 runs on 18650 and now can also run on two CR123 batteries. 18650 rechargeable battery provides the best output, by far. However, you can now use 2 CR123A batteries if needed. You will see reduced output with CR123A batteries (50,000 Candela, 400 Lumens and 60 minutes runtime, respectively). 3" Bezel diameter - smaller than the original REIN in diameter. Lower mounting lug profile keeps the REIN 3.0 closer to your rail than ever before. Included In the Box: REIN Legacy Light Body 18650 Battery Spare o-ring (for REIN 2.0 light heads)

Sicherheitshinweise für den REIN Legacy Light Body Cloud Defensive

Einführung

Herzlichen Glückwunsch zum Kauf des REIN Legacy Light Body! Dieses Produkt wurde entwickelt, um Ihnen eine herausragende Leistung und Vielseitigkeit zu bieten. Um sicherzustellen, dass Sie das Beste aus Ihrem neuen Licht herausholen und dabei sicher bleiben, beachten Sie bitte die folgenden Sicherheitshinweise und Gebrauchsanweisungen.

Allgemeine Sicherheitsrichtlinien

- Stellen Sie sicher, dass das Produkt für den vorgesehenen Gebrauch geeignet ist.
- Verwenden Sie das Produkt nur gemäß den Anweisungen in diesem Handbuch.
- Halten Sie das Produkt außerhalb der Reichweite von Kindern und gefährdeten Personen.
- Überprüfen Sie das Produkt regelmäßig auf Beschädigungen oder Abnutzung.
- Verwenden Sie nur die empfohlenen Batterien (Cloud Defensivemarkierte Samsung™ FlatTop 30Q 18650Batterien oder 18350Batterien).
- Verwenden Sie keine beschädigten oder nicht kompatiblen Teile.

Besondere Sicherheitsvorkehrungen für die Verwendung

- Achten Sie darauf, dass der REIN Legacy Body korrekt mit dem Lichtkopf und den verwendeten Tail Caps verbunden ist.
- Vermeiden Sie den Kontakt mit Wasser oder anderen Flüssigkeiten, um Schäden zu vermeiden.
- Verwenden Sie das Produkt nicht in explosiven oder gefährlichen Umgebungen.
- Seien Sie vorsichtig bei der Handhabung von Batterien, insbesondere beim Einsetzen und Herausnehmen.
- Lagern Sie das Produkt an einem kühlen, trockenen Ort, um die Lebensdauer der Komponenten zu verlängern.

Anweisungen zur Installation und Nutzung

1. Installation des Lichtkopfes:

- Entfernen Sie die vorhandene Tail Cap von Ihrem REIN Legacy Body.
- Setzen Sie den REIN 3.0 Lichtkopf auf den Legacy Body und drehen Sie ihn im Uhrzeigersinn, bis er fest sitzt.

2. Batterieeinsetzung:

- Öffnen Sie die Batterieabdeckung am REIN Legacy Body.
- Setzen Sie eine Cloud Defensivemarkierte Samsung™ FlatTop 30Q 18650Batterie oder eine 18350Batterie ein. Achten Sie darauf, die Polarität (+/-) zu beachten.
- Schließen Sie die Batterieabdeckung wieder.

3. Verwendung des Remote Switches:

- Verbinden Sie den Remote Switch mit dem REIN Legacy Body. Stellen Sie sicher, dass er fest sitzt.
- Betätigen Sie den Remote Switch, um das Licht ein oder auszuschalten.

4. Betrieb des Lichts:

- Schalten Sie das Licht ein, indem Sie den Remote Switch betätigen.

- Nutzen Sie die verschiedenen Helligkeitsstufen, falls verfügbar, um die gewünschte Beleuchtung zu erreichen.

Entsorgungsanweisungen

- Entsorgen Sie leere oder defekte Batterien gemäß den örtlichen Vorschriften für gefährliche Abfälle.
- Entsorgen Sie das Produkt nicht im Hausmüll. Informieren Sie sich über die richtigen Entsorgungsmethoden für elektronische Geräte in Ihrer Region.
- Recyceln Sie das Produkt, wenn möglich, um umweltfreundlich zu handeln.

Kontaktinformationen für weitere Unterstützung

Für Fragen oder Bedenken zu Ihrem REIN Legacy Light Body wenden Sie sich bitte an den Kundendienst von Cloud Defensive oder den entsprechenden Hersteller. Sie stehen Ihnen gerne zur Verfügung, um Ihnen bei Ihren Anliegen zu helfen.

Bitte beachten Sie, dass der REIN Legacy Body nicht mit ButtonTopBatterien kompatibel ist und dass die Verwendung von nicht empfohlenen Komponenten die Leistung beeinträchtigen kann. Halten Sie sich an die oben genannten Sicherheitsrichtlinien, um eine sichere und effektive Nutzung Ihres Produkts zu gewährleisten.

REIN Legacy Light Body Safety Instructions

Introduction

Thank you for choosing the REIN Legacy Light Body. This product is designed to provide optimal performance and versatility for your lighting needs. This safety instruction guide aims to ensure safe and effective use of the product while complying with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before each use.
- Do not use the product if it appears damaged or malfunctioning.
- Follow all installation and usage instructions provided in this guide.
- Dispose of the product responsibly in accordance with local regulations.

Specific Safety Precautions for Use

- **Battery Safety:**

- Use only Cloud Defensivebranded Samsung flattop 30Q 18650 batteries or 18350 batteries for optimal performance.
- Do not use buttontop batteries as they are not compatible with the REIN Legacy Body.
- Ensure batteries are installed correctly, observing the polarity markings.
- Do not mix old and new batteries or different types of batteries.
- If you notice any leakage or swelling of the battery, discontinue use immediately and dispose of the battery safely.

- **Electrical Safety:**

- Avoid exposing the product to water or extreme temperatures.
- Do not attempt to disassemble or modify the product.
- Ensure that all connections are secure before use to prevent electrical failures.

- **Remote Switches:**

- Ensure compatibility with the remote switches and tail cap assemblies used with the REIN 3.0 weapon light.
- Regularly check remote switches for any signs of damage.

- **Usage Environment:**

- Do not use the product in explosive or flammable environments.
- Be cautious when using the light in dark environments; avoid shining the light directly into the eyes of others.

Instructions for Installation and Usage

- **Installation:**

1. Ensure the REIN Legacy Light Body is clean and free of debris.
2. Insert the compatible battery (18650 or 18350) into the battery compartment, ensuring correct

polarity.

3. Attach the tail cap securely to the body of the light.

4. If using a remote switch, connect it to the tail cap according to the manufacturer's instructions.

- **Usage:**

- To turn on the light, press the power button located on the tail cap or remote switch.
- Adjust the light settings as needed, following the specific instructions for your remote switch model.
- Monitor the battery life and replace or recharge batteries as necessary.
- When finished, turn off the light to conserve battery life.

Disposal Instructions

- Dispose of the product and its components in accordance with local regulations.
- Do not throw batteries in the regular trash. Follow local guidelines for battery disposal and recycling.
- If you are unsure about how to dispose of the product, contact your local waste management authority for guidance.

Guida alla Sicurezza del Prodotto per il REIN Legacy Light Body

Introduzione

Grazie per aver scelto il REIN Legacy Light Body. Questa guida fornisce informazioni importanti sulla sicurezza e sull'uso corretto del prodotto, in conformità con il Regolamento Generale sulla Sicurezza dei Prodotti dell'Unione Europea (GPSR). Per garantire un utilizzo sicuro e ottimale del prodotto, si prega di leggere attentamente le seguenti informazioni.

Linee Guida Generali per la Sicurezza

- Assicurati che il prodotto sia utilizzato solo per scopi previsti e in conformità con le istruzioni fornite.
- Controlla regolarmente il prodotto per eventuali segni di usura o danni. Non utilizzare il prodotto se presenta difetti visibili.
- Tieni il prodotto fuori dalla portata dei bambini e di persone vulnerabili.
- Non utilizzare il prodotto in ambienti pericolosi o in condizioni meteorologiche avverse.
- Segnala eventuali prodotti non sicuri o incidenti alle autorità competenti.
- Controlla regolarmente il sito web della Safety Gate dell'UE per aggiornamenti sui richiami.

Precauzioni di Sicurezza Specifiche per l'Uso

- **Uso della Batteria:** Utilizza esclusivamente batterie 18650 o 18350 a marchio Cloud Defensive. Non utilizzare batterie buttontop, poiché non sono compatibili.
- **Installazione del Tappo Posteriore:** Assicurati che il tappo posteriore sia installato correttamente prima dell'uso. Un'installazione scorretta può causare malfunzionamenti.
- **Interruttori Remoti:** Utilizza solo interruttori remoti compatibili, come quelli a marchio Surefire™ o Unity Tactical™. Controlla la compatibilità prima dell'uso.
- **Controllo della Luce:** Non guardare direttamente la luce accesa per evitare danni agli occhi. Utilizza il prodotto in modo responsabile.
- **Manutenzione:** Pulisci regolarmente il prodotto con un panno morbido e asciutto per mantenerne le prestazioni.

Istruzioni per l'Installazione e l'Uso

1. Installazione della Batteria:

- Apri il tappo posteriore.
- Inserisci la batteria 18650 o 18350, assicurandoti che i poli positivo e negativo siano correttamente orientati.
- Riavvita il tappo posteriore fino a quando non è ben fissato.

2. Accensione della Luce:

- Utilizza l'interruttore principale per accendere la luce.
- Se utilizzi un interruttore remoto, assicurati che sia correttamente collegato al tappo posteriore.

3. Regolazione dell'Intensità:

- Se disponibile, utilizza le funzioni di regolazione dell'intensità per adattare la luminosità alle tue esigenze.

4. Spegnimento della Luce:

- Usa l'interruttore principale o l'interruttore remoto per spegnere la luce quando non è in uso.

Istruzioni per lo Smaltimento

- Non gettare il prodotto insieme ai rifiuti domestici. Segui le normative locali per lo smaltimento delle apparecchiature elettriche ed elettroniche.
- Le batterie devono essere smaltite in conformità con le normative locali sui rifiuti pericolosi. Controlla i punti di raccolta autorizzati nella tua area.

Conclusione

Seguendo queste linee guida di sicurezza, puoi utilizzare il REIN Legacy Light Body in modo sicuro e responsabile. Grazie per aver scelto il nostro prodotto e per il tuo impegno nella sicurezza.

REIN LEGACY LIGHT BODY CLOUD DEFENSIVE REIN LEGACY LIGHT BODY KIT 1100LUMEN W/REIN 3.0 HEAD BLACK Turvallisuusohjeet

Johdanto

Tervetuloa REIN Legacy Light Body tuotteen käyttöohjeeseen. Tämä ohje sisältää tärkeitä tietoja ja turvallisuusohjeita, joita sinun tulee noudattaa tuotteen turvallisessa käytössä. Lue ohjeet huolellisesti ennen tuotteen käyttöä.

Yleiset turvallisuusohjeet

- Varmista, että tuote on tarkoitettu ainoastaan aikuisille, äläkä anna lasten käyttää sitä ilman valvontaa.
- Tarkista tuote ennen käyttöä. Jos siinä on näkyviä vaurioita, älä käytä sitä.
- Älä käytä tuotetta, jos se on vaurioitunut tai sitä on muokattu.
- Vältä tuotteen käyttöä kosteissa tai märissä olosuhteissa, ellei se ole erityisesti suunniteltu sellaiseen käyttöön.
- Säilytä tuote poissa lasten ulottuvilta.
- Älä altista tuotetta äärimmäisille lämpötiloille tai kosteudelle.
- Varmista, että käytät vain suositeltuja akkuja (flattop 18650 tai CR123A) tuotteen kanssa.

Erityiset turvallisuustoimenpiteet käytössä

- Älä katso suoraan valopäähän, kun se on päällä. Tämä voi vahingoittaa silmiäsi.
- Varmista, että valopää on kiinnitetty oikein ennen käyttöä.
- Älä käytä tuotetta, jos se ei toimi odotetusti. Ota yhteyttä asiakaspalveluun ongelmien ratkaisemiseksi.
- Vältä tuotteen käyttöä, jos se on altistunut vedelle tai muille nesteille.
- Älä yritä purkaa tai korjata tuotetta itse.

Asennus ja käyttöohjeet

1. Asennus:

- Varmista, että akku on oikein asennettu. Tarkista, että akku on flattop 18650 tai CR123A akku.
- Kiinnitä valopää REIN Legacy Bodyyn varmistaen, että se on tiukasti paikallaan.

2. Käyttö:

- Käynnistä valo painamalla etäkytkintä tai valopään painiketta.
- Säädä valon kirkkaus tarvittaessa.
- Varmista, että käytät tuotetta vain sen suunnitelluissa käyttötarkoituksissa.

3. Vianetsintä:

- Jos valo ei syty, tarkista akun kunto ja varmista, että se on oikein asennettu.
- Jos valo vilkkuu tai sammuttaa itsensä, akku saattaa olla tyhjentynyt. Lataa tai vaihda akku.

Hävittämisohteet

- Hävitä käytetyt akut paikallisten sääntöjen ja ohjeiden mukaisesti. Älä heitä akkuja tavalliseen sekajätteeseen.
- Tuote on valmistettu kierrätettävistä materiaaleista. Tarkista paikalliset ohjeet tuotteen hävittämiseksi.

Lisätietoja

- Jos sinulla on kysymyksiä tai tarvitset lisätietoja tuotteesta, ota yhteyttä asiakaspalveluun. He auttavat sinua kaikissa tuotteeseen liittyvissä kysymyksissä.

Muista, että turvallisuus on ensisijainen asia. Noudata aina näitä ohjeita varmistaaksesi turvallisen ja tehokkaan käytön.
