

270 WINCHESTER BRASS 100/BAG

STARLINE 270 WINCHESTER BRASS The .270 Winchester has been around nearly a century and has become just as popular as its parent cartridge, the .30-06. Chambered by almost every major firearm manufacturer with a hunting rifle in their lineup, the 270 Winchester has made quite a name for itself as a big game caliber in North America. In fact, it was a favorite cartridge of Starline Brass founder Frank Snow for elk hunting. It also acts as a great varmint caliber when loaded with the lighter 90-110 grain bullets that are available.

Attributes

- Name: 270 WINCHESTER BRASS 100/BAG
- Manufacturer: STARLINE, INC
- Product no.: 430113401

Safety Instruction Guide for 270 Winchester Brass

Introduction

Thank you for choosing the 270 Winchester Brass from Starline, Inc. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before use.

General Safety Guidelines

- Ensure that all users are familiar with safe handling practices for ammunition components.
- Always store brass and ammunition in a cool, dry place away from direct sunlight.
- Keep brass out of reach of children and unauthorized individuals.
- Regularly inspect brass for signs of damage or wear before use.
- Follow all local laws and regulations regarding the use and storage of ammunition components.

Specific Safety Precautions for Use

- Only use the 270 Winchester Brass with compatible firearms as specified by the manufacturer.
- Avoid using damaged or deformed brass, as this can lead to malfunctions or accidents.
- Wear appropriate eye and ear protection when reloading or shooting.
- Do not exceed the recommended load specifications for the 270 Winchester caliber.
- Always ensure the firearm is pointed in a safe direction when loading or unloading.
- Be aware of your surroundings and ensure a safe shooting environment.

Instructions for Installation and Usage

1. Preparation for Reloading

- Gather all necessary tools and materials, including reloading press, dies, powder, and primers.
- Ensure your work area is clean and organized.

2. Inspecting Brass

- Examine each piece of brass for cracks, dents, or other defects.
- Clean the brass to remove any dirt or debris.

3. Reloading Process

- Resize the brass using the appropriate die in your reloading press.
- Trim the brass to the correct length if necessary.
- Prime the brass using a suitable primer for the 270 Winchester.
- Measure and add the correct amount of powder.
- Seat the bullet firmly and ensure it is at the correct overall length.

4. Final Inspection

- Inspect the completed cartridges for consistency and safety before use.
- Store completed cartridges in a secure and designated location.

Disposal Instructions

- Dispose of any damaged or unusable brass in accordance with local regulations.
- Do not discard brass in regular trash; consider recycling options.
- Follow hazardous waste disposal guidelines for any materials used in reloading.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 270 Winchester Brass, please reach out to your local retailer or manufacturer's support line. Always ensure you have the latest information and guidance regarding product safety.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your 270 Winchester Brass. Thank you for prioritizing safety!
