

C-4 MONOLITHIC CHASSIS FOR REMINGTON 700 SHORT ACTION - KINETIC RESEARCH GROUP C-4 CHASSIS REM700 SA W/OPT INLET SHROUD/THUMBGRIP/ENH CHEEK

KINETIC RESEARCH GROUP C-4 MONOLITHIC CHASSIS FOR REMINGTON 700 SA

Purpose built with direct feedback from top competitors and trainers the C-4 is the epitome of the modern competition rifle chassis. With sought after features such as tool-less adjustable length of pull, cheekpiece, height and cant, as well as their new bag rider height adjustment, this chassis is designed to fit the shooter for maximum comfort and repeatability. KRG also included height and tension adjustment for your magazine to adjust for the many variations that can occur allowing your preferred AICS or AW mag to fit and feed just right. The C-4 features a full monolithic aluminum frame, an extended 16 3/4" forend, and an integral ARCA Rail making it extremely rigid and resistant to variations. If you are looking for the ultimate competition chassis the C-4 is ready to go for your next rifle build. SPECS Fits: Remington 700 SA/LA, Tikka T3 (including T3x and CTR) and most clones. **Lone Peak actions may require bedding** Grip: Thumbshelf Grip Barrel Shroud: Optic Inlet Shroud or Extnded Optic Inlet Shroud Cheekpiece: Enhanced or Overmolded Magazine: Short Action - AICS or AW pattern, Tikka T3 CTR magazine. C4 Monolithic Chassis for Remington 700 Short Action Safety Instructions

Introduction

Thank you for choosing the Kinetic Research Group C4 Monolithic Chassis for your Remington 700 Short Action. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this document carefully before installation and usage.

General Safety Guidelines

- Product Safety:
 - This chassis is designed for safe use with Remington 700 Short Action rifles. Ensure that you follow all instructions to minimize risks.
- Enhanced Recalls:
 - In the event of a safety concern, recall notices will be provided. Please stay informed about any updates regarding the product.
- Online Shopping:
 - If purchased online, ensure that the platform meets safety requirements similar to physical stores.
- Special Consumer Focus:
 - This product is intended for adult users. Keep it out of reach of children and vulnerable individuals.
- EU Contact Point:
 - For safety inquiries, please consult the relevant EU contact point.
- Rapid Alerts:
 - Stay updated on product safety through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure that the chassis is compatible with your Remington 700 Short Action rifle before installation.
- Inspect the chassis for any visible damage before use. Do not use if damaged.
- Ensure that all adjustments (length of pull, cheekpiece height, and cant) are securely locked before firing.
- Use only recommended magazine types (AICS or AW pattern, Tikka T3 CTR magazine) to avoid feeding issues.
- Be mindful of the weight of the chassis (6.3 lbs without magazine) when handling and transporting your rifle.
- Always follow firearm safety rules when handling your rifle equipped with this chassis.

Instructions for Installation and Usage

1. Installation:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Remove the existing stock from your Remington 700 Short Action.
- Align the chassis with the action of the rifle and secure it using the provided screws.
- Adjust the length of pull, cheekpiece height, and cant to fit your shooting preference.
- Ensure that the magazine is properly seated and that the magazine tension is adjusted for a secure fit.

2. Usage:

- When using the chassis, maintain a proper shooting stance to ensure stability.
- Regularly check the tightness of all screws and adjustments to maintain safety during firing.
- Clean the chassis regularly to ensure optimal performance and longevity.
- If you experience any malfunctions, cease use immediately and consult a qualified gunsmith.

Disposal Instructions

- Dispose of the chassis in accordance with local regulations regarding aluminum products.
- Ensure that any components that may pose a risk are disposed of safely to prevent injury.

Contact Information for Further Support

For any questions or concerns regarding the C4 Monolithic Chassis, please refer to the appropriate support channels or consult the retailer where the product was purchased.

By following these safety instructions, you can help ensure a safe and enjoyable experience with your Kinetic Research Group C4 Monolithic Chassis. Always prioritize safety and responsible firearm handling.
