Safety Instruction Guide for Remington 12 Gauge Standard Contour Gas Cylinder for Remington 1187

Introduction

Thank you for purchasing the Remington 12 Gauge Standard Contour Gas Cylinder for the Remington 1187. This guide provides important safety instructions to ensure the safe and effective use of the product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure that you are familiar with the operation of your shotgun before using this gas cylinder.
- Always follow the manufacturer's instructions for your shotgun.
- Store the gas cylinder in a cool, dry place, away from direct sunlight and moisture.
- Keep the gas cylinder out of reach of children and unauthorized users.
- Regularly inspect your shotgun and its components for wear and damage.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Only use the gas cylinder with the Remington 1187 model to avoid compatibility issues.
- Never attempt to modify or alter the gas cylinder in any way.
- Use only ammunition that is recommended for the Remington 1187 shotgun.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Ensure that the shotgun is unloaded before performing any maintenance or installation work.
- Handle the gas cylinder with care to avoid any physical damage.

Instructions for Installation and Usage

1. Preparation

- Ensure that the shotgun is completely unloaded.
- Gather necessary tools for installation, such as a screwdriver and cleaning cloth.

2. Installation

- Remove the old gas cylinder from the shotgun by following the manufacturer's instructions.
- Clean the area where the gas cylinder will be installed to remove any debris or residue.
- Align the new gas cylinder with the mounting points on the shotgun and secure it in place using the appropriate screws.
- Doublecheck that the gas cylinder is firmly attached and that there are no loose parts.

3. Usage

- After installation, conduct a function check to ensure proper operation.
- Load the shotgun with the recommended ammunition and test fire in a safe and controlled environment.
- Monitor the shotgun's performance and check for any signs of malfunction during use.

4. PostUse Maintenance

- Clean the gas cylinder and surrounding areas after each use to maintain optimal performance.
- Store the shotgun and gas cylinder in a safe location when not in use.

Disposal Instructions

- Dispose of any old or damaged components in accordance with local regulations.
- Do not dispose of the gas cylinder in regular household waste.
- Check for local recycling programs or hazardous waste disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the Remington 12 Gauge Standard Contour Gas Cylinder for the Remington 1187, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure a safe and enjoyable experience with your Remington shotgun. Thank you for your attention to safety.
