

LV-120 TUBES SHOULDER STRAP - SPIRITUS SYSTEMS LV-120 TUBES SHOULDER STRAP MULTICAM

SPIRITUS SYSTEMS LV-120 TUBES SHOULDER STRAP The LV-120 Tubes Shoulder Strap is a replacement for the standard shoulder strap on the LV-120 Plate Carrier. This strap utilizes the First Spear 2" Tubes for quick release functionality. The Tubes enable you to quickly don and doff your plate carrier, without removing a helmet. It also gives you the ability to rapidly detach the carrier from your body in a casualty scenario or maritime environment. The LV-120 Tubes Shoulder Strap features a heat-shrunk pull cord for easy access and reduced snag hazard. Most people configure a single tube on their non-dominant side, but you do have the ability to purchase two straps to have the tubes functionality on both sides.

Safety Instruction Guide for LV120 Tubes Shoulder Strap

Introduction

Thank you for choosing the SPIRITUS SYSTEMS LV120 Tubes Shoulder Strap. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your shoulder strap. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the LV120 Tubes Shoulder Strap is used only for its intended purpose as a part of the LV120 Plate Carrier.
- Regularly inspect the strap for any signs of wear or damage before each use. Do not use if damaged.
- Keep the strap away from sharp objects and extreme heat sources to prevent damage.
- Store the strap in a cool, dry place when not in use.
- Be aware of your surroundings while using the strap to avoid entanglement or injury.

Specific Safety Precautions for Use

- Always ensure that the strap is securely attached to the LV120 Plate Carrier before use.
- When using the quick release functionality, practice the release mechanism in a safe environment to familiarize yourself with its operation.
- Avoid wearing the plate carrier with the strap in environments where it may be caught on obstacles.
- Do not attempt to modify or alter the strap in any way, as this may compromise safety.
- If using the strap in maritime environments, ensure it is properly secured to prevent accidental detachment.

Instructions for Installation and Usage

1. Installation of the Strap:

- Locate the attachment points on your LV120 Plate Carrier.
- Align the Tubes on the strap with the attachment points.
- Insert the Tubes into the attachment points until you hear a click, indicating that they are securely locked in place.
- Ensure that the strap is positioned correctly for comfort and functionality.

2. Using the Strap:

- To wear the plate carrier, adjust the strap length as necessary to fit your body comfortably.
- To release the strap, pull the heatshrinked pull cord to disengage the Tubes quickly.
- Practice donning and doffing the plate carrier in a controlled environment to become proficient with the strap's functionality.

3. Detaching the Strap:

- In an emergency or casualty scenario, pull the heatshrinked pull cord to release the Tubes quickly.
- Ensure that you are in a safe area to detach the carrier completely.

Disposal Instructions

- When the LV120 Tubes Shoulder Strap reaches the end of its life cycle, dispose of it responsibly.
- Check local regulations for proper disposal methods for textile and plastic materials.
- Do not dispose of the strap in regular household waste if it can be recycled.

Contact Information for Further Support

For any safety inquiries or further support regarding the LV120 Tubes Shoulder Strap, please reach out to the designated contact point provided by the manufacturer.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your SPIRITUS SYSTEMS LV120 Tubes Shoulder Strap. Always prioritize safety and remain aware of your surroundings while using this product. Thank you for your attention and safe usage!
