

ROMAD ASSAULT COMMS PACK - EBERLESTOCK ROMAD PACK MILITARY GREEN

EBERLESTOCK ROMAD ASSAULT COMMS PACK ROMAD is a lightweight, compact, and highly versatile comms assault pack that was tested and refined on deployment. Smaller than legacy radio packs like the FAC Track, ROMAD's streamlined design reduces your profile while providing enough room for sustainment and extra gear. These same design choices make ROMAD equally capable on the trail, at the range, or as a bugout bag. ROMAD is intentionally sized to fit communications systems like the PRC117 and has internal loop MOLLE webbing for securing additional accessories like radio pouches, Velcro holsters, or mag pouches. Locking zippers along the comms port give in-field security and work as a first line of defense against the elements. Accessing the internals is quick and straightforward, thanks to a full-length U-shaped opening that runs from top to bottom. This design feature lets you rapidly retrieve gear without having to blindly feel your way around the pack. A separate, dedicated hydration sleeve keeps liquids away from sensitive equipment, clothing, or other gear in the pack's main compartment. On the pack's exterior, you'll find two zippered organizational pockets. The top pocket is perfect for grab-and-go essentials, and the bottom has padding for NODs or hearing protection. ROMAD's internal HDPE frame adds structure and support for heavier loads, and ergonomic air-mesh padding provides all-day comfort and ventilation with or without a plate carrier. MOLLE webbing along the entire shoulder harness keeps cables secure and protected, reducing snags and giving you a place to route hydration system hoses. When working in confined spaces like vehicles, helicopters, and watercraft, ROMAD's slim profile promotes maneuverability. This makes ROMAD a fantastic choice for carry-on travel or transport from field work to the gym. Extensive MOLLE webbing across all external surfaces allows ROMAD to expand with the addition of MOLLE-compatible accessories, allowing you to prioritize sustainment and scale up or down from there depending on the mission.

Safety Instruction Guide for EBERLESTOCK ROMAD ASSAULT COMMS PACK

Introduction

Thank you for choosing the EBERLESTOCK ROMAD ASSAULT COMMS PACK. This guide provides essential safety instructions to ensure the safe use of your product. Please read and follow these guidelines carefully to maximize your experience and safety while using this pack.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as a comms assault pack.
- Regularly inspect the pack for any signs of wear or damage before each use.
- Avoid overloading the pack beyond its specified weight limit to prevent strain and potential injury.
- Keep the pack away from sharp objects and extreme heat sources to avoid damage.
- Store the pack in a cool, dry place when not in use to maintain its integrity.
- Be mindful of your surroundings when using the pack, especially in confined spaces.

Specific Safety Precautions for Use

- **Hydration Sleeve:** Always ensure that the hydration bladder is securely fastened in its dedicated sleeve to avoid leaks that could damage sensitive equipment.
- **Zippers:** Use locking zippers carefully to secure your items. Ensure zippers are fully closed before storing the pack to prevent loss of contents.
- **Cable Management:** Use the cable management features to prevent tangling and snagging of cables while in use.
- **Weight Distribution:** Distribute weight evenly within the pack to maintain balance and comfort during use.
- **Children:** This product is not intended for use by children. Keep it out of reach of children to prevent accidents.

Instructions for Installation and Usage

1. Packing Your ROMAD ASSAULT COMMS PACK:

- Begin by placing heavier items at the bottom of the pack for better weight distribution.
- Utilize the internal MOLLE webbing to secure additional accessories like radio pouches and holsters.
- Store smaller items in the exterior zippered pockets for easy access.

2. Using the Hydration System:

- Insert the hydration bladder into the dedicated hydration sleeve.
- Ensure the hydration port is accessible and that the hose is routed through the designated channel to prevent kinks.

3. Adjusting the Shoulder Harness:

- Adjust the shoulder straps to fit snugly but comfortably.
- Use the MOLLE webbing on the shoulder harness to secure any additional cables or hydration hoses.

4. Accessing Internal Compartments:

- Use the fulllength Ushaped opening to access the internal compartments easily.
- Avoid reaching blindly into the pack to prevent injury or damage to contents.

5. Transporting the Pack:

- When carrying the pack, ensure all zippers are secured.
- If traveling in confined spaces, be mindful of the pack's slim profile to maintain maneuverability.

Disposal Instructions

- Dispose of the EBERLESTOCK ROMAD ASSAULT COMMS PACK responsibly.
- If the pack is damaged beyond repair, consider recycling the materials where possible.
- Follow local regulations for the disposal of textiles and plastic materials.
