

MICRO FIGHT CHASSIS MK6 - SPIRITUS SYSTEMS MK6 MICRO FIGHT CHASSIS BLACK

SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK6 The Micro Fight Chassis Mk 6 is a small and lightweight chassis that can be used as either a standalone magazine placard on an LV-120 Plate Carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The Mk 6 is a single cell placard-style chassis that is built with MOLLE on the front and sides to accommodate additional magazine and utility pouches. Tourniquets and other equipment can also be stowed outboard with their Universal Retention Kit, and a row of anchor points along the top opening will interface with their magazine Bungee Retention Kit to secure any caliber of weapon. The main cell of the Mk 6 is lined with loop on both sides and will accommodate all of Spiritus Systems' Magazine Inserts. Versatile and Scalable The Micro Fight Chassis Mk 6 will interface with each of Spiritus Systems' chest rig and LV-120 Plate Carrier components. The footprint of the Mk 6 is identical to the Mk 5 and will seamlessly connect with the LV-120 Plate Carrier, as well as the Thing 3. The buckle straps on the rear of the Mk 6 can be used to adjust the height, using either the side release buckles (included) or the Flat G-Hooks (sold separately). Stand Alone System The Micro Fight Chassis Mk 6 was designed to perform as a stand-alone system. It can be configured for wear in low visibility environments that require minimal printing through clothing with maximum equipment storage. It can also be configured for high visibility operations where a full spectrum of equipment is required. Placard Configuration The Micro Fight Chassis Mk 6 works seamlessly as a placard for the LV-120 Plate Carrier using either the side release buckles or G-Hooks (G-Hooks sold separately). First Spear Tubes (sold separately) can be attached to the side of the Mk 6 in place of the side release buckles, for a more secure fit to the carrier by attaching the cummerbund to the placard. The Mk 6 is UCAS compatible. NOTE: The Chassis is part of the Micro Fight Chest Rig System. This item does not include Shoulder Straps (Fat Straps), a Back Strap, Magazine Inserts, or any other Accessories. Some images shown with optional accessories, sold separately.

Safety Instruction Guide for MICRO FIGHT CHASSIS MK6

Introduction

Thank you for choosing the MICRO FIGHT CHASSIS MK6 by Spiritus Systems. This guide provides essential safety instructions to ensure the safe use and handling of your product. Please read through this guide carefully before use to familiarize yourself with the safety precautions, installation instructions, and disposal methods.

General Safety Guidelines

- Ensure that the MICRO FIGHT CHASSIS MK6 is used only for its intended purpose as a magazine placard or central hub for a chest rig.
- Always check the product for any signs of damage or wear before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals to prevent misuse or accidents.
- Be aware of your surroundings when using the chassis, especially in highvisibility operations.
- Regularly inspect the chassis and any attached components for proper functionality and security.
- Follow all local laws and regulations regarding the use of tactical gear and accessories.

Specific Safety Precautions for Use

- When adjusting the height of the chassis using the buckle straps, ensure that they are securely fastened to prevent accidental release.
- Avoid overloading the chassis with excessive weight, as this can affect balance and stability.
- When using the Universal Retention Kit for tourniquets and other equipment, ensure they are properly secured to prevent accidental loss during movement.
- If using the GHooks or First Spear Tubes for attachment, ensure they are compatible and securely fastened to avoid detachment.
- In low visibility environments, ensure that the chassis does not print excessively through clothing to maintain stealth.

Instructions for Installation and Usage

1. Attachment to Plate Carrier:

- To attach the MICRO FIGHT CHASSIS MK6 to the LV120 Plate Carrier, use either the included side release buckles or GHooks (sold separately).
- For a more secure fit, First Spear Tubes (sold separately) can be used in place of the side release buckles.

2. Adjusting Height:

- Utilize the buckle straps located on the rear of the chassis to adjust the height.
- Ensure that the straps are tightened adequately to prevent movement during use.

3. Loading and Configuration:

- Load the main cell with Spiritus Systems' Magazine Inserts, ensuring they are seated properly.
- Use the MOLLE webbing on the front and sides to attach additional magazine and utility pouches as needed.
- Ensure that all attachments are secure before use.

4. Stowing Equipment:

- Use the Universal Retention Kit to stow tourniquets and other equipment outboard.
- Utilize the row of anchor points along the top opening to interface with the magazine Bungee Retention Kit.

5. Safety Checks:

- Before each use, conduct a thorough safety check to ensure all components are functioning properly and securely attached.

Disposal Instructions

- Dispose of the MICRO FIGHT CHASSIS MK6 in accordance with local regulations.
- If the product is damaged beyond repair, ensure it is disposed of in a manner that prevents any potential hazards to the environment or public safety.
