

MICRO FIGHT CHASSIS MK6 - SPIRITUS SYSTEMS MK6 MICRO FIGHT CHASSIS MULTICAM

SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK6 The Micro Fight Chassis Mk 6 is a small and lightweight chassis that can be used as either a standalone magazine placard on an LV-120 Plate Carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The Mk 6 is a single cell placard-style chassis that is built with MOLLE on the front and sides to accommodate additional magazine and utility pouches. Tourniquets and other equipment can also be stowed outboard with their Universal Retention Kit, and a row of anchor points along the top opening will interface with their magazine Bungee Retention Kit to secure any caliber of weapon. The main cell of the Mk 6 is lined with loop on both sides and will accommodate all of Spiritus Systems' Magazine Inserts. Versatile and Scalable The Micro Fight Chassis Mk 6 will interface with each of Spiritus Systems' chest rig and LV-120 Plate Carrier components. The footprint of the Mk 6 is identical to the Mk 5 and will seamlessly connect with the LV-120 Plate Carrier, as well as the Thing 3. The buckle straps on the rear of the Mk 6 can be used to adjust the height, using either the side release buckles (included) or the Flat G-Hooks (sold separately). Stand Alone System The Micro Fight Chassis Mk 6 was designed to perform as a stand-alone system. It can be configured for wear in low visibility environments that require minimal printing through clothing with maximum equipment storage. It can also be configured for high visibility operations where a full spectrum of equipment is required. Placard Configuration The Micro Fight Chassis Mk 6 works seamlessly as a placard for the LV-120 Plate Carrier using either the side release buckles or G-Hooks (G-Hooks sold separately). First Spear Tubes (sold separately) can be attached to the side of the Mk 6 in place of the side release buckles, for a more secure fit to the carrier by attaching the cummerbund to the placard. The Mk 6 is UCAS compatible. NOTE: The Chassis is part of the Micro Fight Chest Rig System. This item does not include Shoulder Straps (Fat Straps), a Back Strap, Magazine Inserts, or any other Accessories. Some images shown with optional accessories, sold separately.

Attributes

- Name: SPIRITUS SYSTEMS MK6 MICRO FIGHT CHASSIS MULTICAM
- Manufacturer: SPIRITUS SYSTEMS
- Product no.: 430118035
- Mfr. No.: CR-MF-MC-06
- Colour: Multi-Cam
- Delivery weight: 0.184kg
- Shipping height: 305mm
- Shipping width: 229mm
- Shipping length: 29mm

Safety Instruction Guide for MICRO FIGHT CHASSIS MK6 SPIRITUS SYSTEMS

Introduction

Thank you for choosing the MICRO FIGHT CHASSIS MK6 by SPIRITUS SYSTEMS. This guide provides essential safety information and instructions to ensure the safe use and maintenance of your product. Please read this guide carefully before use.

General Safety Guidelines

- Always ensure the chassis is used in accordance with the manufacturer's instructions.
- Inspect the product regularly for any signs of wear or damage before each use.
- Use the chassis only for its intended purpose. It is designed as a magazine placard or central hub for a chest rig.
- Keep the chassis out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that all components, including magazine inserts and retention kits, are compatible with the MK6 chassis.
- Avoid overloading the chassis with excessive weight, as this may compromise its structural integrity.
- When configuring for low visibility environments, ensure that all equipment is securely stowed to prevent accidental exposure.
- For high visibility operations, ensure that all equipment is properly secured and easily accessible.
- Always use the provided buckles or GHooks correctly to secure the chassis to the LV120 Plate Carrier.

Instructions for Installation and Usage

1. Installation on LV120 Plate Carrier:

- Attach the chassis to the LV120 Plate Carrier using either the side release buckles or the GHooks.
- Ensure that the attachment is secure and that the chassis is positioned comfortably.

2. Configuring the Chassis:

- Adjust the height of the chassis using the buckle straps located on the rear.
- Select either the side release buckles or the Flat GHooks for adjustment (GHooks sold separately).
- For enhanced security, consider using First Spear Tubes (sold separately) to attach the cummerbund to the placard.

3. Using the Magazine Inserts:

- Insert the magazine inserts into the main cell of the chassis. Ensure they fit snugly.
- The main cell is lined with loop material on both sides to accommodate all Spiritus Systems' Magazine Inserts.

4. Stowing Equipment:

- Use the Universal Retention Kit to stow tourniquets and other equipment outboard.
- Utilize the anchor points along the top opening for the magazine Bungee Retention Kit to secure weapons.

5. Regular Maintenance:

- Clean the chassis with a damp cloth and mild detergent as needed.
- Avoid exposing the chassis to harsh chemicals that may damage the material.

Disposal Instructions

- Dispose of the MICRO FIGHT CHASSIS MK6 in accordance with local regulations for textile and plastic waste.
- Ensure that the product is completely unusable before disposal to prevent accidental use by others.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the MICRO FIGHT CHASSIS MK6, please contact the manufacturer directly through the provided contact channels.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
