

CONTENDER SUPREME APPENDIX BELT - NEXBELT CONTENDER SUPREME APPENDIX BELT BLACK

NEXBELT CONTENDER SUPREME APPENDIX BELT Nexbelt designed the Contender Supreme Appendix belt specifically for the appendix carrier. With its compact buckle design and incredibly adjustable latch system, you'll have enough room to carry your protection device and even extra magazines upfront comfortably. The buckle can be worn front and center, on your left or right hip, or hidden near the back curve. That same flexible design also allows the CCW and belt to move with you throughout the day. This key feature limits the jabbing common to most appendix-carry belts while maintaining your protection device's total security. With a new push-button trigger, the release is quick and easy when needed but still firm when on the go. Though Nexbelt designed it for appendix carry, this belt's versatility and sturdiness allow the person to switch to OWB or IWB on the hip. Nexbelt's new Contender straps are made from a rigid yet stretchable material, an advanced composite of ultra-fine polyester fibers. This allows the stiffness required to carry but also allows some stretch in the strap for comfort while living an active lifestyle."''
