

GRIP INSERTS - RANSOM GRIP INSERTS FOR BERETTA APX COMPACT

RANSOM INTERNATIONAL GRIP INSERTS Do not use hard grip inserts or 3D-printed plastic grip inserts for your Master Series Ransom Rest. Hard inserts damage the gun by generating destructive recoil energy that travels through the frame and barrel. Not only that, most hard or 3D-printed inserts are poorly engineered and fail to replicate human-like recoil, rendering any test data invalid. Hard grip inserts will not provide repeatable test results to your hand and the end user of the firearm. The grip inserts are specifically designed to match the durometer of the human hand. The inserts absorb the first few milliseconds of shot before the machine can even mechanically recoil. Look at the photo attached here: You can see the bullet has left the barrel. The machine has not come out of a lowered battery position, and the slide has not come out of lockup. The first few milliseconds of vibration and recoil are absorbed by the insert before the machine can even respond. Why will a hard insert damage your gun? The simplest, most direct answer is that physics teaches us that every action has an equal and opposite reaction. Therefore, Chuck Ransom always said vibration and recoil cannot be stopped; they can only be repeatedly controlled. If these forces do not have somewhere to travel, they will find a way to go. Just as lightning and water will find a way to travel and move, so will vibration and recoil. The inserts are specifically designed to act like the human hand, absorbing these forces and not transferring them into the gun. The Ransom rest insert absorbs vibration and harmonics, then properly transfers the energy into the rest to recoil as a human does coaxially. This whole unit functions similarly to how your hand absorbs the recoil and vibration. The grip inserts and machine, as a pair, are specifically designed to absorb this. This damage may not be seen right away, but it accrues with each shot. A hard insert will decrease the life of the barrel and gun, and it may possibly cause injury or death if something occurs. A hard insert will not be duplicatable to the end user. Whether destructive testing or accuracy testing, you must mimic the human, or your test is flawed. If a hard or 3d printed insert worked. Then every gun manufacturer would already be using them, and there would be no need for a Ransom Rest company. Take note and caution, many have tried, and many have found out the hard way. Caution: Don't use hard or 3D-printed inserts.

GRIP INSERTS FÜR BERETTA APX COMPACT

Einführung

Willkommen zu den Sicherheitshinweisen für die GRIP INSERTS RANSOM GRIP INSERTS für die Beretta APX Compact. Diese Anleitung soll dir helfen, das Produkt sicher und effektiv zu verwenden, um mögliche Risiken zu minimieren und die Lebensdauer deines Gewehrs zu maximieren.

Allgemeine Sicherheitsrichtlinien

- Stelle sicher, dass du die GRIP INSERTS nur in Verbindung mit dem Master Series Ransom Rest verwendest.
- Verwende keine harten Grip Inserts oder 3Dgedruckte Kunststoffgriffstücke, da diese deinem Gewehr schaden können.
- Achte darauf, dass die Inserts richtig installiert sind, um optimale Ergebnisse zu erzielen.
- Halte dich an alle Anweisungen in dieser Anleitung, um sicherzustellen, dass du das Produkt sicher verwendest.

Besondere Sicherheitsvorkehrungen für die Nutzung

- Die GRIP INSERTS sind so gestaltet, dass sie dem Durometer der menschlichen Hand entsprechen und die Rückstoßkräfte absorbieren.
- Achte darauf, dass du die ersten Millisekunden des Schusses absorbierst, bevor das Gewehr mechanisch zurückschlägt.
- Überprüfe regelmäßig die Inserts auf Abnutzung oder Beschädigung, um sicherzustellen, dass sie ihre Funktion erfüllen.
- Sei vorsichtig, dass du das Produkt nicht überlastest, da dies zu Schäden führen kann.

Anweisungen für Installation und Nutzung

1. Installation der GRIP INSERTS

- Stelle sicher, dass dein Gewehr sicher und stabil auf dem Ransom Rest platziert ist.
- Entferne alle alten Inserts, falls vorhanden.
- Setze die neuen GRIP INSERTS vorsichtig in die vorgesehenen Halterungen ein und achte darauf, dass sie fest sitzen.
- Überprüfe die Inserts auf korrekten Sitz und Stabilität.

2. Nutzung der GRIP INSERTS

- Stelle sicher, dass du beim Schießen die richtige Haltung einnimmst, um die bestmögliche Rückstoßabsorption zu gewährleisten.
- Achte darauf, dass das Gewehr während des Schusses stabil bleibt.
- Führe regelmäßig Tests durch, um sicherzustellen, dass die Inserts ordnungsgemäß funktionieren.

Entsorgungsanweisungen

- Entsorge beschädigte oder abgenutzte Inserts gemäß den örtlichen Vorschriften für Kunststoffabfälle.
- Achte darauf, dass alle Teile umweltgerecht entsorgt werden, um die Umwelt zu schonen.

Kontaktinformationen für weitere Unterstützung

- Bei Fragen oder Bedenken zu den GRIP INSERTS wende dich an den Hersteller oder den Händler, bei dem du das Produkt erworben hast. Sie können dir weitere Informationen und Unterstützung bieten.

Wichtige Hinweise

- Diese Schäden sind möglicherweise nicht sofort sichtbar, sammeln sich jedoch mit jedem Schuss an.
- Ein hartes Insert kann die Lebensdauer des Laufs und des Gewehrs verringern und möglicherweise Verletzungen oder sogar den Tod verursachen, wenn etwas passiert.
- Wenn ein hartes oder 3Dgedrucktes Insert funktionieren würde, würden alle Waffenhersteller sie bereits verwenden.
- Verwende keine harten oder 3Dgedruckten Inserts!

Bitte beachte diese Sicherheitshinweise sorgfältig, um die beste Nutzungserfahrung mit deinen GRIP INSERTS zu gewährleisten.

GRIP INSERTS RANSOM GRIP INSERTS FOR BERETTA APX COMPACT Safety Instruction Guide

Introduction

Thank you for choosing the Ransom International Grip Inserts for your Beretta APX Compact. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of the product. Please read this document carefully before installation and use.

General Safety Guidelines

- Ensure safe use of the grip inserts by following all instructions.
- Avoid using hard grip inserts or 3Dprinted plastic grip inserts, as they can damage your firearm.
- Understand that improper use may lead to inaccurate test results or damage to the gun.
