

GRIP INSERTS - RANSOM GRIP INSERTS FOR SIG SAUER P230, 232

RANSOM INTERNATIONAL GRIP INSERTS Do not use hard grip inserts or 3D-printed plastic grip inserts for your Master Series Ransom Rest. Hard inserts damage the gun by generating destructive recoil energy that travels through the frame and barrel. Not only that, most hard or 3D-printed inserts are poorly engineered and fail to replicate human-like recoil, rendering any test data invalid. Hard grip inserts will not provide repeatable test results to your hand and the end user of the firearm. The grip inserts are specifically designed to match the durometer of the human hand. The inserts absorb the first few milliseconds of shot before the machine can even mechanically recoil. Look at the photo attached here: You can see the bullet has left the barrel. The machine has not come out of a lowered battery position, and the slide has not come out of lockup. The first few milliseconds of vibration and recoil are absorbed by the insert before the machine can even respond. Why will a hard insert damage your gun? The simplest, most direct answer is that physics teaches us that every action has an equal and opposite reaction. Therefore, Chuck Ransom always said vibration and recoil cannot be stopped; they can only be repeatedly controlled. If these forces do not have somewhere to travel, they will find a way to go. Just as lightning and water will find a way to travel and move, so will vibration and recoil. The inserts are specifically designed to act like the human hand, absorbing these forces and not transferring them into the gun. The Ransom rest insert absorbs vibration and harmonics, then properly transfers the energy into the rest to recoil as a human does coaxially. This whole unit functions similarly to how your hand absorbs the recoil and vibration. The grip inserts and machine, as a pair, are specifically designed to absorb this. This damage may not be seen right away, but it accrues with each shot. A hard insert will decrease the life of the barrel and gun, and it may possibly cause injury or death if something occurs. A hard insert will not be duplicatable to the end user. Whether destructive testing or accuracy testing, you must mimic the human, or your test is flawed. If a hard or 3d printed insert worked. Then every gun manufacturer would already be using them, and there would be no need for a Ransom Rest company. Take note and caution, many have tried, and many have found out the hard way. Caution: Don't use hard or 3D-printed inserts.

Attributes

- Name: RANSOM GRIP INSERTS FOR SIG SAUER P230, 232
- Manufacturer: RANSOM
- Product no.: 430119439
- Mfr. No.: 30-300-25-06
- Delivery weight: 0.907kg
- UPC: 810132582219

Item details

Made in USA

US export classification: 0A501.y.1

Sicherheitshinweise für die GRIP INSERTS

RANSOM GRIP INSERTS für SIG SAUER P230, 232

Einführung

Willkommen zu den Sicherheitshinweisen für die GRIP INSERTS RANSOM GRIP INSERTS, die speziell für die SIG SAUER P230 und P232 entwickelt wurden. Diese Anleitung soll dir helfen, die Sicherheit bei der Nutzung des Produkts zu gewährleisten und potenzielle Gefahren zu vermeiden.

Allgemeine Sicherheitsrichtlinien

- Stelle sicher, dass du die GRIP INSERTS nur für die vorgesehenen Waffenmodelle verwendest.
- Überprüfe regelmäßig die Inserts auf Beschädigungen oder Abnutzung.
- Bewahre die Inserts außerhalb der Reichweite von Kindern auf.
- Halte dich an die gesetzlichen Bestimmungen für den Umgang mit Schusswaffen und Zubehör in deinem Land.

Spezifische Sicherheitsvorkehrungen für die Nutzung

- Verwende keine harten oder 3Dgedruckten Einsätze, da diese die Waffe beschädigen können.
- Achte darauf, dass die Inserts korrekt installiert sind, um eine optimale Leistung zu gewährleisten.
- Führe keine Tests durch, die die Rückstoßkräfte überlasten könnten.
- Verwende die Inserts nur in Verbindung mit einem geeigneten Ransom Rest.

Anweisungen zur Installation und Nutzung

1. Installation der GRIP INSERTS:

- Entferne die vorhandenen Griffe von deiner SIG SAUER P230 oder P232.
- Setze die GRIP INSERTS an die vorgesehenen Stellen ein.
- Stelle sicher, dass die Inserts fest sitzen und keine Lücken zwischen der Waffe und den Inserts bestehen.

2. Nutzung der GRIP INSERTS:

- Nutze die Inserts während des Schießens, um die Rückstoßenergie zu absorbieren.
- Achte darauf, dass du die Waffe sicher und stabil hältst.
- Vermeide es, die Waffe während des Schießens zu bewegen, um genaue Ergebnisse zu erzielen.

Entsorgungsanweisungen

- Entsorge beschädigte oder abgenutzte GRIP INSERTS gemäß den örtlichen Vorschriften für Kunststoffabfälle.
- Achte darauf, dass die Inserts nicht in die Umwelt gelangen.

Kontaktinformationen für weitere Unterstützung

Für weitere Informationen oder Unterstützung wende dich bitte an den Hersteller oder einen autorisierten Händler. Stelle sicher, dass du alle relevanten Informationen zu deinem Produkt bereithältst.

Diese Sicherheitshinweise sind wichtig, um die sichere Nutzung der GRIP INSERTS zu gewährleisten. Bitte befolge alle Anweisungen sorgfältig und halte dich an die allgemeinen Sicherheitsrichtlinien. Bei Fragen oder Bedenken wende dich an den entsprechenden Ansprechpartner.

GRIP INSERTS RANSOM GRIP INSERTS FOR SIG SAUER P230, 232

Introduction

Thank you for choosing Ransom International Grip Inserts for your SIG Sauer P230 and P232. These grip inserts are designed to enhance the performance of your Master Series Ransom Rest while ensuring the safety of your firearm. Please read this guide carefully to understand the safety precautions and proper usage of the product.

General Safety Guidelines

- Ensure safe use of all nonfood products, including new technologies and online purchases.
- Be aware of risks not covered by other EU laws.
- Always check for recall updates on the EU's Safety Gate platform.
- Report any unsafe products or accidents to the authorities.
- Special care should be taken when using this product around vulnerable groups, such as children.

Specific Safety Precautions for Use

- **Do Not Use Hard Inserts:** Avoid using hard grip inserts or 3Dprinted plastic grip inserts. These can damage your firearm by generating destructive recoil energy.
- **Understand Recoil Dynamics:** Hard inserts do not replicate humanlike recoil, leading to invalid test data.
- **Monitor for Damage:** Damage from hard inserts may not be immediately visible but can accumulate with each shot, decreasing the life of your barrel and firearm.
- **Follow Testing Protocols:** When conducting destructive or accuracy testing, it is crucial to mimic human recoil dynamics. Using hard or 3Dprinted inserts can lead to flawed test results.
- **Cautionary Note:** Many have tried using hard inserts and have learned the hard way about their potential dangers.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Master Series Ransom Rest is turned off and safe before installation.
- Carefully remove any existing grip inserts from the Ransom Rest.
- Align the Ransom Grip Inserts with the designated slots on the Ransom Rest.
- Firmly press the inserts into place until securely fitted.

2. Usage:

- Always check that the grip inserts are properly installed before use.
- When conducting tests, ensure that the firearm is securely positioned in the Ransom Rest.
- Monitor the performance of the inserts during use. If you notice any unusual vibrations or movement, cease use immediately and inspect the inserts.
- Remember that the inserts are designed to absorb recoil and vibration, thus providing more accurate test results.

Disposal Instructions

- Dispose of any damaged or wornout grip inserts in accordance with local regulations for plastic waste.
- Do not throw inserts in regular household waste if they are contaminated or unsafe.

Contact Information for Further Support

For inquiries regarding safety or product performance, please refer to the designated contact points provided by the manufacturer or consult the product packaging for further details.

By following these guidelines and instructions, you can ensure safe and effective use of the Ransom Grip Inserts for your SIG Sauer P230 and P232. Thank you for your attention to safety and performance.

Istruzioni per la Sicurezza dei Grip Inserts Ransom per SIG Sauer P230 e P232

Introduzione

Benvenuto! Questo documento fornisce importanti istruzioni di sicurezza e informazioni per l'uso dei Grip Inserts Ransom progettati per i tuoi SIG Sauer P230 e P232. È fondamentale seguire queste linee guida per garantire un utilizzo sicuro e efficace del prodotto.

Linee Guida Generali di Sicurezza

- Assicurati sempre che l'arma sia scarica prima di installare o rimuovere i Grip Inserts.
- Non utilizzare grip inserts rigidi o inserti in plastica stampati in 3D, poiché possono danneggiare l'arma.
- Controlla regolarmente l'integrità degli inserti e sostituiscili se mostrano segni di usura.
- Segui tutte le normative locali e nazionali relative all'uso delle armi.

Precauzioni di Sicurezza Specifiche per l'Uso

- Gli inserti sono progettati per assorbire il rinculo e le vibrazioni, quindi non devono essere utilizzati in combinazione con inserti rigidi.
- Non forzare mai l'inserto nella posizione; assicurati che sia installato correttamente.
- Evita di utilizzare l'arma in condizioni estreme (es. temperature molto alte o basse) che potrebbero influenzare le prestazioni degli inserti.
- Se noti vibrazioni anomale durante l'uso, interrompi immediatamente l'uso e controlla gli inserti.

Istruzioni per l'Installazione e l'Uso

1. **Preparazione:** Assicurati che l'arma sia completamente scarica e che tu abbia un'area di lavoro pulita.
2. **Installazione:**
 - Rimuovi eventuali inserti esistenti.
 - Posiziona il Grip Insert Ransom nel posto designato.
 - Assicurati che l'inserto sia ben fissato e non ci siano spazi vuoti.
3. **Utilizzo:**
 - Utilizza l'arma come indicato dal produttore, mantenendo sempre una buona presa sull'arma.
 - Monitora le prestazioni dell'inserto durante l'uso e verifica che non ci siano segni di danneggiamento.
4. **Rimozione:**
 - Per rimuovere l'inserto, segui le istruzioni di installazione al contrario.
 - Controlla l'arma per eventuali segni di usura o danni.

Istruzioni per lo Smaltimento

- Gli inserti devono essere smaltiti in conformità con le normative locali per i rifiuti elettronici e plastici.
- Non gettare gli inserti nel normale spazzatura; contatta un centro di raccolta rifiuti per indicazioni sullo smaltimento corretto.

Informazioni di Contatto per Ulteriori Supporto

Per ulteriori informazioni o domande relative alla sicurezza, consulta il tuo rivenditore autorizzato o visita il sito web ufficiale del produttore. È importante avere un punto di contatto in caso di domande o problemi di sicurezza.

Conclusione

Seguendo queste istruzioni di sicurezza, puoi garantire un utilizzo sicuro e efficace dei Grip Inserts Ransom per il tuo SIG Sauer P230 e P232. La tua sicurezza e quella degli altri sono la priorità principale. Grazie per aver scelto i Grip Inserts Ransom!
