

GRIP INSERTS - RANSOM GRIP INSERTS FOR S&W 6900,6904,6906,6946

RANSOM INTERNATIONAL GRIP INSERTS Do not use hard grip inserts or 3D-printed plastic grip inserts for your Master Series Ransom Rest. Hard inserts damage the gun by generating destructive recoil energy that travels through the frame and barrel. Not only that, most hard or 3D-printed inserts are poorly engineered and fail to replicate human-like recoil, rendering any test data invalid. Hard grip inserts will not provide repeatable test results to your hand and the end user of the firearm. The grip inserts are specifically designed to match the durometer of the human hand. The inserts absorb the first few milliseconds of shot before the machine can even mechanically recoil. Look at the photo attached here: You can see the bullet has left the barrel. The machine has not come out of a lowered battery position, and the slide has not come out of lockup. The first few milliseconds of vibration and recoil are absorbed by the insert before the machine can even respond. Why will a hard insert damage your gun? The simplest, most direct answer is that physics teaches us that every action has an equal and opposite reaction. Therefore, Chuck Ransom always said vibration and recoil cannot be stopped; they can only be repeatedly controlled. If these forces do not have somewhere to travel, they will find a way to go. Just as lightning and water will find a way to travel and move, so will vibration and recoil. The inserts are specifically designed to act like the human hand, absorbing these forces and not transferring them into the gun. The Ransom rest insert absorbs vibration and harmonics, then properly transfers the energy into the rest to recoil as a human does coaxially. This whole unit functions similarly to how your hand absorbs the recoil and vibration. The grip inserts and machine, as a pair, are specifically designed to absorb this. This damage may not be seen right away, but it accrues with each shot. A hard insert will decrease the life of the barrel and gun, and it may possibly cause injury or death if something occurs. A hard insert will not be duplicatable to the end user. Whether destructive testing or accuracy testing, you must mimic the human, or your test is flawed. If a hard or 3d printed insert worked. Then every gun manufacturer would already be using them, and there would be no need for a Ransom Rest company. Take note and caution, many have tried, and many have found out the hard way. Caution: Don't use hard or 3D-printed inserts.

Spezifische Sicherheitsvorkehrungen für die Nutzung

- Verwende die Inserts ausschließlich gemäß den Anweisungen in diesem Handbuch.
- Verwende keine harten oder 3Dgedruckten Inserts, da diese deinem Gewehr schaden können.
- Achte darauf, dass die Inserts richtig im Ransom Rest installiert sind, um eine sichere Nutzung zu gewährleisten.
- Überprüfe die Inserts regelmäßig auf Abnutzung oder Beschädigungen.

Anweisungen für Installation und Nutzung

1. Installation der Grip Inserts:

- Stelle sicher, dass das Gewehr entladen ist, bevor du mit der Installation beginnst.
- Entferne die alten Inserts, falls vorhanden.
- Setze die neuen GRIP INSERTS vorsichtig in die vorgesehenen Halterungen ein.
- Achte darauf, dass die Inserts fest und sicher sitzen.

2. Nutzung der Grip Inserts:

- Positioniere das Gewehr sicher im Ransom Rest.
- Achte darauf, dass die Inserts die Vibrationen und den Rückstoß während des Schusses absorbieren.
- Vermeide es, das Gewehr während des Schießens zu bewegen.

Entsorgungsanweisungen

- Entsorge die GRIP INSERTS gemäß den örtlichen Vorschriften für Kunststoffabfälle.
- Stelle sicher, dass du alte Inserts sicher entsorgst, um Umweltverschmutzung zu vermeiden.

Kontaktinformationen für weitere Unterstützung

Für Fragen zur Produktsicherheit oder zur Installation der GRIP INSERTS wende dich bitte an die zuständige EUKontaktstelle. Achte darauf, alle Sicherheitsrichtlinien zu befolgen und die Inserts regelmäßig zu überprüfen, um eine optimale Leistung und Sicherheit zu gewährleisten.

Safety Instruction Guide for GRIP INSERTS

RANSOM GRIP INSERTS FOR S&W 6900, 6904, 6906, 6946

Introduction

Thank you for choosing the Ransom International Grip Inserts. These inserts are designed to enhance the performance of your Master Series Ransom Rest while ensuring the longevity of your firearm. It is crucial to follow the safety guidelines outlined in this document to ensure safe usage and to avoid potential hazards.

General Safety Guidelines

- Ensure the product is used only as intended.
- Always handle firearms with care and follow all safety protocols.
- Do not use hard grip inserts or 3Dprinted plastic grip inserts.
- Be aware of the risks associated with improper use of grip inserts.
- Regularly inspect your grip inserts for signs of wear or damage.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Avoid Hard Inserts:** Do not use hard grip inserts as they can damage your firearm and lead to inaccurate test results.
- **Understand Recoil Dynamics:** Recognize that vibration and recoil are natural forces that cannot be eliminated but can be controlled.
- **Mimic Human Response:** Use inserts designed to replicate the human hand's ability to absorb recoil. This ensures accurate testing and protects both the firearm and the user.
- **Inspect Before Use:** Check the condition of the grip inserts before each use to ensure they are functioning correctly.
- **Educate Yourself:** Familiarize yourself with the proper handling of firearms and the use of Ransom Rest products.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded before installing the grip inserts.
- Remove any existing grip inserts from the Ransom Rest.
- Align the Ransom Grip Inserts with the designated slots in the Ransom Rest.
- Firmly press the inserts into place until they fit snugly.

2. Usage:

- Place the firearm securely in the Ransom Rest.
- Ensure the grip inserts are properly engaged and not loose.
- Conduct your shooting tests as per your standard procedures.
- Monitor the performance of the inserts during use and check for any signs of damage.

Disposal Instructions

- Dispose of any damaged or worn grip inserts in accordance with local regulations.
- Do not dispose of inserts in regular household waste if they contain materials that may be harmful to the environment.
- Contact your local waste management facility for guidance on proper disposal methods.
