

Control Points - MDT Accessories - Control Points - Rifle - BLK

MDT Rifle Control Points give your support hand a consistent reference point every single time you get behind your rifle. Instead of searching for placement or rebuilding your grip between different positions, your hand naturally returns to the exact same location. This allows you to establish stable positions faster, stay perfectly aligned behind your rifle, and maintain shot-to-shot consistency from stage to stage.

Engineered for precision and stability, the combination of an ergonomic thumb shelf, a textured interface, and a specialized V-Hull profile work seamlessly together to maximize rifle control while shooting from a support bag. By providing your support hand with superior leverage and creating optimal engagement with the bag, Control Points help the rifle track much more consistently through recoil. This makes it significantly easier to spot impacts and stay securely on target for rapid, accurate follow-up shots.

Every shooter builds positions and grips differently. Featuring unlimited adjustment capability along standard M-LOK slots, MDT Control Points can be placed exactly where they work best for your unique hand size, individual shooting style, and specific support equipment. Whether you are optimizing your setup for maximum comfort, enhanced control, or advanced recoil management, you can fine-tune your rifle to perfectly match the way you shoot.

MDT Control Points Safety Instruction Guide

Introduction

Thank you for choosing the MDT Control Points. This product is designed to enhance your shooting experience by providing a consistent reference point for your support hand. To ensure safe and effective use of the MDT Control Points, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as described in the product text.
- Inspect the Control Points regularly for any signs of wear or damage before each use.
- Always practice safe firearm handling and adhere to local laws and regulations regarding firearms and accessories.
- Store the Control Points in a secure location when not in use to prevent unauthorized access, especially by children or individuals unfamiliar with firearms.
- Report any unsafe product experiences or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always verify that the firearm is unloaded before attaching or adjusting the Control Points.
- Ensure that the Control Points are securely fastened and properly adjusted to prevent any movement during use.
- Avoid using the Control Points in adverse weather conditions that could affect your grip or the stability of your shooting position.
- Be aware of your surroundings and ensure that you have a clear line of sight and a safe backstop when shooting.
- If you experience any discomfort or instability while using the Control Points, discontinue use and consult a qualified professional.

Instructions for Installation and Usage

1. Installation:

- Identify the preferred location on your support equipment where the MDT Control Points will be mounted.
- Ensure that the MLOK slots are clean and free from debris.
- Align the Control Points with the MLOK slots and insert the screws provided with the product.
- Tighten the screws securely but do not overtighten, as this may damage the product or the mounting surface.

2. Usage:

- Position your support hand on the Control Points, ensuring a comfortable grip.
- Practice returning your hand to the Control Points in various shooting positions to establish muscle memory.
- Adjust the Control Points as needed to accommodate your unique hand size and shooting style.
- Regularly check the stability of the Control Points during use, especially after extended shooting sessions.

Disposal Instructions

- Dispose of the MDT Control Points according to local regulations for electronic or plastic waste.
- Do not dispose of the product in household trash.

- If the product is damaged beyond repair, contact local waste management services for guidance on proper disposal methods.

Contact Information for Further Support

For safety inquiries, product support, or to report unsafe products, please reach out to your local authorities or consult the relevant consumer safety organization in your region.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the MDT Control Points while ensuring safety for yourself and those around you.
